

make  
**miCare Health Center**  
*YOUR CARE*.....

Open a primary-care clinic  
at or near your worksite, for  
your members.

Improve your members' health,  
make it easier and quicker for  
them to receive care, and lower  
your healthcare costs.

# What is a miCare HEALTH CENTER?

A miCare Health Center is a primary-care clinic that offers acute, preventative and wellness services sponsored by you for your members. It is located on or near your worksite and can be easily accessed by members and their families.

## Choose the miCare Health Center solution

Partner with miCare Health Center to provide an innovative solution to improve the health of your members and their families while lowering healthcare costs for them and for your business.

Our data shows that your self-insured trust funds will save money by providing lower-cost, accessible, and easier-to-manage healthcare benefits for your members. In addition, you as an employer or plan sponsor will be providing a highly competitive healthcare benefit to your members that is hard to match.

### Your miCare Health Center is:

#### Staffed by healthcare professionals

Doctors | Physician assistants | Family nurse practitioners | Licensed nursing staff

#### Equipped to provide many services

Office visits | Procedures | Annual physical exams | Acute care  
Chronic disease management | Lab testing | Prescriptions | Wellness programs  
Health risk assessments for employees | Health education & consultation

## How are you able to save money on your healthcare benefit costs?

Monthly per-employee fee provides member access

Direct pass-through cost model controls expenses

Clinics designed for one organization or several groups

## We manage YOU SAVE

Partnering with you, miCare develops a program that meets your needs. Then our dedicated management staff will:

- Design, build and equip your clinic
- Recruit and manage top providers
- Determine flexible clinic hours to maximize use
- Maintain 24/7 online portal for appointments and records
- Encourage clinic use with strong communication plan
- Share extensive data on clinic utilization and expenses

Over 85%  
of a member's  
primary care and  
wellness needs  
can be delivered at  
your company's  
miCare Health  
Center

## Be a more Competitive Employer or Plan Sponsor

A miCare Health Center benefit allows your members to:

Reduce healthcare costs | Receive better care | Improve healthcare access

A miCare Health Center model is not only more accessible for your members but also runs more efficiently. These clinics are operated without unnecessary or inflated overhead costs.

Savings in time and money are passed on directly to an employer benefit plan.

One miCare Health Center in Montana saw these savings over 5 years:

61%  
on office visits

- 23% on prescriptions costs
- 32% in lab costs

# miCare Health Centers work. We've got the numbers to PROVE IT.

**64%**  
reported significant  
**COST SAVINGS\***

- **20-25%** over traditional open-access retail fee for services
- **15-25%** on office visits
- **5-10%** in lab costs

**63%** experienced reduced use  
of emergency room

\*National Association of Worksite Health Centers study of companies with on-site medical clinics

**“The miCare Health Center provides outstanding primary care and allows you to choose the level of care that works for you. The providers are very flexible, the physicians can provide primary care or they can work with a prior-established provider for your best health outcomes.”**

*– Lori Durand, Human Resource Specialist for the City of Yakima*

## Next steps:

- ☐ Contact a miCare Health Center representative to learn more
- ☐ Share data for a miCare Health Center review
- ☐ Move to RFP & approval stage
